

# Digital Audit Kit

How to find concrete proof that 99% of people forget to delete.

# The Digital Truth.

The Cell Phone Records Everything.

- Even if messages and history are deleted, the system maintains "digital logs".

Residual Data:

- Battery consumption
- Location history
- App usage time

# Module 1 - The Secret Vault

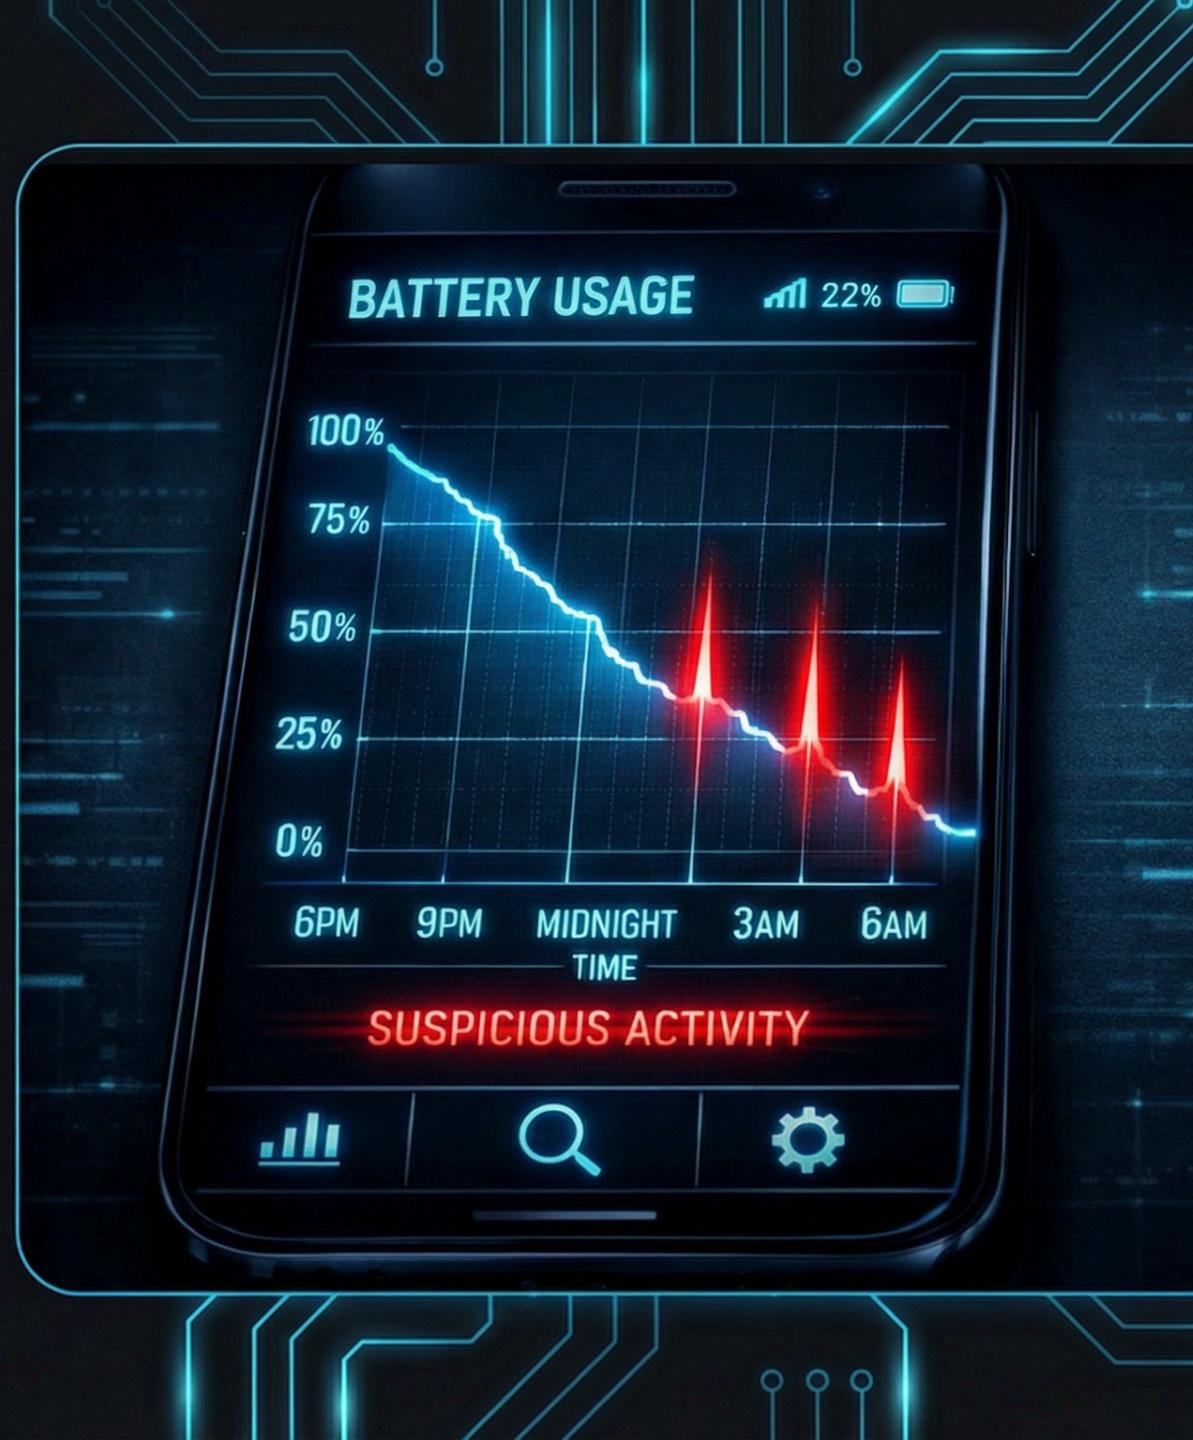

- **Disguised Apps:** Look for calculators or antivirus apps requiring passwords.
- **Complete App Library:** Check iPhone App Library or Android App Drawer.
- **App Store History:** Search for 'Vault', 'Hide', or 'Secret' in download history.

# Module 2 - The “Traitor Battery” Technique.

## Key Points:

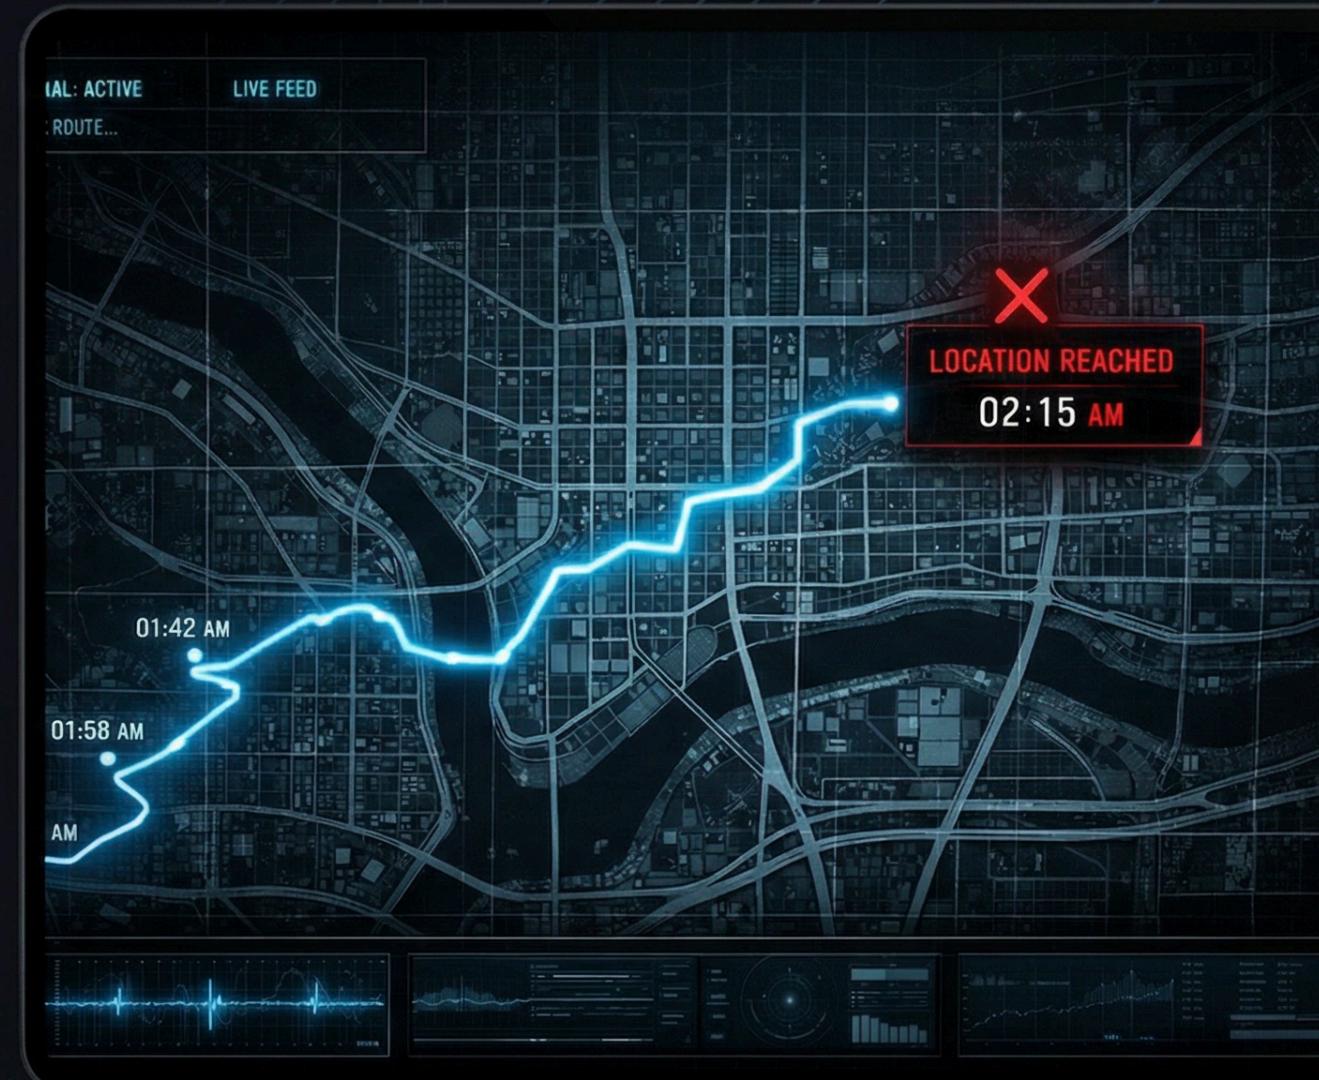

1. Access Settings > Battery.
2. Review last 24h/7d usage.
3. Red Alert: Late-night activity with empty chats.

# The Map of Truth

## Module 3

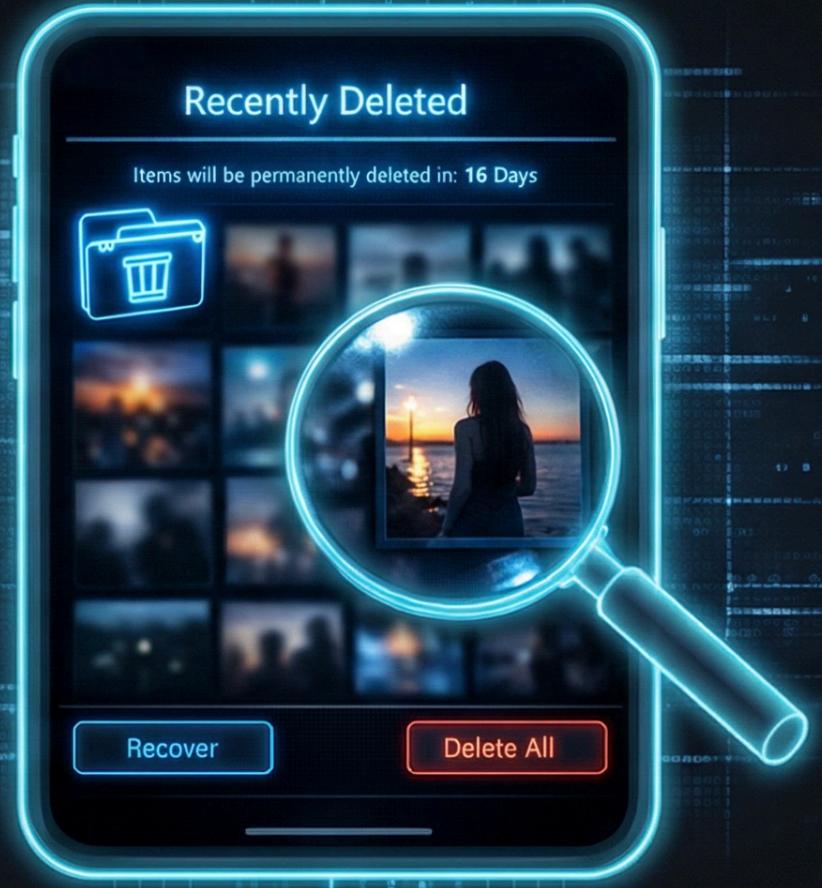

1. **iPhone:** Significant Locations (Settings > Privacy).
2. **Android:** Google Maps Timeline.
3. **Cross-Reference:** Compare location data with stated alibis.

# Module 4 - What Was Deleted

Investigative techniques for uncovering deleted digital evidence.

1. **'Recently Deleted' Album:** Check the photo gallery's trash folder; items are often held for 30 days.
2. **Cloud Trash:** Check iCloud or Google Photos trash; deleting from the device doesn't always delete from the cloud.
3. **WhatsApp Media:** Photos and videos often remain in internal storage folders even if chats are gone.

# Safety and Caution Tips

- 1. Do Not Alter Anything:** Don't delete, edit, or send files to yourself.
- 2. Restore the Status Quo:** Close apps and tabs exactly as found.
- 3. Proof is External:** Use your own phone to take photos of the screen; do not take screenshots.

# Conclusion: You Have the Proof. Now What?

- **1. Use Wisely:** Use this information to confront or make your decision.
- **2. Combine Skills:** Pair this digital evidence with Body Language skills for absolute certainty.

**Digital logs reveal what happened; body language reveals the truth behind the denial.**
